Week beginning 13th July 2020

Hello Foundation and welcome to the last week of the school year!

This week, try a different activity each day. You can do one of each of these or you could choose your own activity for each day. We can't wait to see what you have been up to!

1. Make a bug hotel.

You could use any natural materials that you can find in your garden or on a walk. Make a nice little home for all the bugs in the garden.

2. Plant seeds.

You could plant some seeds in your garden. It could be straight into the ground or in little flower pots. What type of flower or plant would you like to grow?

3. Bake a cake

Why not try baking a cake or buns or biscuits with your family? What flavours will you choose?

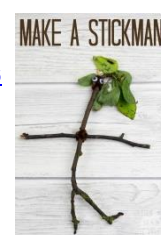

4. Make stickman

Watch the story of stick man here:

<https://www.bing.com/videos/search?q=stickman+julia+donaldson+animation&docid=608002691373073609&mid=928A0F8D45E793F5ABE2928A0F8D45E793F5ABE2&view-detail&FORM=VIRE>

Why not try making your very own stick man. What will he look like? How will you join together his body parts?

5. Bird Spotting

Look outside or go for a walk and see which birds you can spot. What do they look like? Are they all the same or different?
