Week beginning 13th July 2020

Hello Year 1 and welcome to the last week of the school year!

This week, try a different activity each day. You can do one of each of these or you could choose your own activity for each day. We can't wait to see what you have been up to!

1. Make a reading den

Use objects from around the house to make a cosy den for you to sit inside. Take your favourite book in with you and enjoy reading in a quiet space.

2. Plant seeds

You could plant some seeds in your garden. It could be straight into the ground or in little flower pots. What type of flower or plant would you like to grow?

3. Bake a cake

Why not try baking a cake or buns or biscuits with your family? What flavours will you choose? **Write the names of the ingredients that you use.**

4. Make your own puppets

Use materials from around the house and make your own puppets. **Can you perform a puppet show for your family?**

5. Bird Spotting

Look outside or go for a walk and see which birds you can spot. What do they look like? Are they all the same or different? **Can you write the names of the different birds you find?**
